

## Summary

This is a workbook on **Addition/Multiplication – Two Digits**. The idea for the book came about while teaching math to my daughter. Each time I had to teach something, I had to order a book, erase a worksheet or run to the printer.

Elementary math books can be generated ad hoc using simple Python scripts, and I started publishing simple scripts in a github project 'mathninja'. Hope you enjoy the series of 'mathninja' workbooks and distribute them to students.

*"God used beautiful mathematics in creating the world"*

- Paul Dirac
